

# Gain a Competitive Edge

Earn an Advanced Degree in Chemical Engineering at the University of Mississippi

*Ole Miss*

Chemical Engineering

**Our faculty aim to provide unique mentorship and research opportunities to empower graduates as researchers and leaders across the globe**

## **Our diverse areas to research include:**

- Polymeric drug delivery
- Multifunctional Coatings
- Membrane Science
- Molecular Simulation
- Nanocomposites
- Interfacial Chemistry & Surfactant Science

**Masters in Chemical Engineering Science (thesis & non-thesis)  
Doctorate in Chemical Engineering Science**

**For more program information visit [chemical.olemiss.edu](http://chemical.olemiss.edu)  
or contact us directly at [chemengr@olemiss.edu](mailto:chemengr@olemiss.edu)**
