

## CHEMICAL AND BIOMOLECULAR ENGINEERING

**Join our thriving  
graduate community**

**University of  
Notre Dame**

Notre Dame CBE graduate students engage in world-class, high-impact research while receiving exceptional support to prepare for and reach professional goals.

**Apply by January 1, 2024**

**Priority Date: December 1, 2023**

### **Research Areas**

- Bioengineering and Diagnostics
- Energy and Sustainability
- Molecular Simulation and Data Science
- Soft Matter and Nanomaterials

### **Ph.D. Student Benefits**

- Generous 12-month stipends
- 100% health insurance premiums paid
- Full-tuition scholarships
- Outstanding core research facilities
- Funding opportunities to support travel to conferences and workshops
- Professional development support
- Close knit, supportive graduate community
